Detailed Action

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 3, 7, 8 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Evans et al.

Note pins 60, 64, dipper 14, rod 62, recesses 20, 28, links 30 and bushings 66, 68 whose heads fit in the recesses.

3. Claims 4, 5, 6, 9 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Applicants' arguments have been carefully considered but are deemed persuasive since they are directed to features and structure not present in the claims. The claims do not set forth bushings with different lengths and diameters.

5. Any inquiry concerning this communication should be directed to D. Underwood at telephone number (703) 308-1113.
